

Cable Management Systems

BONN METALS CONST. IND. LLC

COMPANY PROFILE

M/s. Bonn Metals Construction Industries LLC, a leading manufacturer of Cable Management Solutions under the brand METAR. Established in 2012 with a factory located at Sajja Industrial area in Sharjah UAE, has now moved to larger premises in Ajman Industrial Area with an 8750 Square Meter factory having all the latest state-of-the-art machineries to cater the ever-growing demand from the market for Cable Trays, Trunkings & Ladder trays.

We have a production capacity to produce up to 12,000 tonnes of steel with multiple shifts and has all the required machines to achieve this target. We are installing a galvanization plant in the same premises to ensure better control on quality galvanization and to ensure reduction in delivery period.

CORPORATE MISSION

“To be the most preferred manufacturer offering comprehensive engineering solutions in cable management to the MEP industry across all spectrum of markets at a fair value, whereby meeting the obligations of the Organization's investors and providing more job opportunities to qualified technical personnel with high moral & ethical integrity”.

Our products are manufactured to quality and standards comply with ISO 9001: 2008, with manufacturing facility operates from the heart of the United Arab Emirates where centralised order processing ensures the same quality of service regardless of ordering point or destination.

Through a number of dedicated production lines and manufacturing cells, Bonn utilises the flexibility of CNC machinery with the latest CAD/CAM facilities to maintain accuracy, quality and speed of manufacturing. Whether initial design, manufacture or technical support, BMCI ensures that quality is maintained through continually improving its systems and process controls.

An ongoing commitment to personnel training has created a working environment that ensures products are manufactured to the highest standards and delivered on time. Fully trained operators offer a wealth of knowledge, experience and expertise to ensure continuity of industry standards in all products.

OUR CUSTOMERS

We at BONN Metals, caters to a wide range of customers from various market segments of construction industry such as the General construction (offices & residential projects), Infrastructure, Industrial, Marine, Oil & Gas projects with our various ranges of products and services.

QUALITY ASSURANCE

Quality being our forte, we have laid down certain quality objectives which are adhered in the manufacturing and other processes. Our ability to abide by standard parameters has enabled us to acquire the ISO 9001: 2008 certification. The finished products are tested for various chemical properties viz. tensile strength, dimensional accuracy and hardness in order to ensure that only flawless products leave the factory premises. Moreover, every process is documented and followed as per quality inspection sheet (QIS) and process inspection sheet (PIS) and we also provide inspection reports to our clients.

OUR GOAL

We endeavour to provide maximum satisfaction to our clients. To meet the same, we are committed towards providing qualitative and cost effective products. Our transparent policy further accentuates our commitment. We have also laid down following future on which we have started working: -
